NAMES IN JERSEY.

SOME OF THE TOWNS THAT MAY BE FOUND IN EVERY ATLAS.

Picturesque Nomenclature That Is Original and Fresh From the Soil-A Native Jerseyman's Explanations of Some of the Appellations.

"Other states may be bigger and richer and turn in a heavier vote," said the man with the woodbine whiskers twining gently about his face, "but for picturesqueness of nomenclature New Jersey takes the gold medal."

"You're from Jersey, sir, I suppose," said the man who had just come in from the smoking car.

ness in the city, and in my leisure moments I make a study of the geography of my native state. I may say, sir-I think I may say with confidence—that few men are so well informed as I upon this interesting subject of New Jersey's geographical noncoclature. You observe, sir, that I say New Jersey, not Jersey, which is an undignified beheading of a noble title."

"Possibly it is because I'm a New Yorker," said the man across the nisle, "but I have always thought New York to be pretty strong on interesting

"A great error, sir," declared he of the whiskers. "A very great error. Your names are mainly corrupted Indian titles or direct cribs from ancient days-Ithaca, Marathon, Utica, Homer, Virgil, Syracuse, Sempronius, Moravia, Rome, Cato, Palmyra and a score of others. You have borrowed the glories that should have been buried with Greece and Rome. Our titles, sir, are dug up from the seil and replete with

meaning. Let me cite some. Here he pulled a small notebook from his pecket, and the other man, with regretful politeness, said he would be glad to learn something on the subject,

'Consider, sir, " continued the Jerseyite, "the appropriateness of such names as Ragtown, Breakfast Point, Camp Gaw, Poliffy, Radix, Pluckemin, Pocktown, Tillietudelum and Succasuna."

the New Yorker, "but are all of these neighborhood, real names? 'Every one of 'em on the map, sir," replied the other warmly. "I'll give you \$100 for any one of these that isn't a real place, and they fairly reck of the soil. Now, here's another batch-Bone Hill, Wickstunk, Bamber, Atco. If you're looking for meaning, I can give that to you. For instance, there are Barley Sheaf and Wheat Sheaf, poetically suggestive of Balm which can be had of the druggist the agricultural riches of our beautiful is sufficient to demonstrate its great state. Our demestic animals are commemorated in such fitting titles as Geosetown, Hensfoot, Hegtown, Monkeytown, Herseneck and Peacocktown, while for other animals there are Skunktown, Pole Tayern, which used to be Polecat Tavern; Pesterrown (if a pester nin t a wild animal I don't know what is), Snake Hill, Turtletown, Fregtown and I don't know but what Batsto ought to come in there. The fregs get another show at Manuaka Chunk, which is the name they gave it themselves, singing of nights out in the ewamps.

"Now, for the temperance folk there are blazing signs of warning in such names as Whisky Lane, Gin Point, Jugtown and Bum Tavern. There used to be an inukeeper in the latter place, by the way, who sued the authorities once a year for maintaining such a title and always compromised for 5 cents, with was well satisfied. One year the authoriinnkeeper in disgust quit the business and Bum Tavern simultaneously. A place with a suggestive title is Naughright, which got its tunne from a large farm owner's sign, nailed on a tree at the roadside, 'No right of way here,' They got calling him Old No Right, and when the village sprung up they spelling reform the wrong way made it tarribly from indigestion, as it now stands. frequently from deception. The most infamous case on record of deception and injustice is the attempt to demonetize silver as a money of final redemption in the United

States. There is no learned judge, skilled lawyer, or court of justice that is capable of reconciling the effort with the constitutional laws that govern

the issue of money in this country. The people have been deceived, officials in power, chosen to administer justice under the laws, have ignored their sworn duty, and given aid to the scheme that has paralyzed industry, reduced property values one-half, and beggared millions.

There is no authority of law, either specific or by inference, by which gold alone is made the only money with which to discharge debts, either public or private. The effort to make it so is unconstitutional and a national calamity. Plain and ample information, facts,

and truth, concerning this almost successful scheme to corner the wealth of the people, is now being printed in the Cincinnati Enquirer, a newspaper which the combined power of noney has failed to muzzle or buy.
